DIARY NOTES

2 June 1964

DD/S

1. At the Executive Committee Meeting this morning I asked General Carter whether he expected a written plan in a nice, neat package in response to the Director's cable that we should have alternate plans available in the event it becomes necessary to evacuate [REDACTED] completely. General Carter said that he did not interpret the Director's message as requiring this but that we should be prepared to come forward on short notice if the Director raises the question again. I asked the Office of Communications and [REDACTED] to send me a copy of their plans, and [REDACTED] promised to send me a copy of the NSA plan so that we will at least have all three plans in one location.

3. [REDACTED] reported that the Research and Development Review Board devoted most of its time yesterday to a briefing by the Technical Services Division on the audio countermeasures problem. [REDACTED] found the situation very confused and the meeting not too satisfactory. However, he is going to meet again today with [REDACTED] and will furnish him with a brief paper on the contribution which he thinks the Office of Communications might make to this problem. (He will send a copy to DD/S.)
